

Rockley members blocking Swanage railway station.

Ex Southern Railway. West Country Class. 34028 "Eddystone" in rebuilt form. Originally designed by O. V. Bulleid and, in production from 1945, weighed in at 128 tons 12 cwt. These engines were a smaller version of the Merchant Navy Class. Rebuilding of the Bulleid pacifics started in the late 1950s early 1960s.

Sunday October 16th 2011

Rockley Cruising Club Goes Loco.

Eighteen members met up at Norden Station, to enjoy a steam hauled trip from Corfe to Swanage and back. Maureen led us on a historical walk around Swanage, then off to the pub for lunch, before taking the train back to Corfe.

Tony (Commodore) & his wife Debbie

A big thank you to Maureen. Pictured right. For leading us around Swanage.
